

# Zebra's RW 420™ 4-Bay Power Station

Ideal for Route Accounting Settlement and  
Field Service Dispatch Centers

## Simple, Multi-Printer Charging for Settlement/Dispatch Centers

Zebra's RW 420™ "Road Warrior" mobile printer is terrific for field service/sales and direct store delivery (DSD) operations—and the new RW 420 4-Bay Power Station makes it even better. This accessory charges up to four RW 420 printers via a single outlet, saving space in your settlement/dispatch center. And it boosts productivity by allowing your mobile workforce to simply "dock and go." Drivers simply slip the printer into a slot to recharge at the end of their shift, then pop it back out before its next use. They can even use the printer while it's in the bay.

## Save Time

When everyone is coming in to charge their equipment at the end of the shift, it's important to make this process easy and reliable. With the self-contained RW 420 4-Bay Power Station, users simply place the printer in the dock. They hear the printer click, see the light go on—and know it's charging. Release it with a push of a button, or use it in the bay while charging.

## Conserve Space

Your settlement/dispatch center has limited space and a limited number of power outlets. By enabling you to plug up to four RW 420 printers in one outlet—compared to charging one printer per outlet with an AC adapter—the RW 420 4-Bay Power Station keeps your settlement/dispatch center neat and organized.

**Take charge of your settlement/dispatch center with a productive and space-saving way to recharge your RW 420 mobile printers: Zebra's RW 420 4-Bay Power Station. For more information, call +1 800 423 0442.**

## Quick Specs\*

### STANDARD FEATURES

Charges up to four (4) RW 420 mobile printers simultaneously  
LEDs on each bay indicate printer charge status  
Easy release buttons

### OPERATING CHARACTERISTICS

#### Environmental

Operating temperature: 32° F/0° C to 90° F/35° C  
Charging temperature: 32° F/0° C to 90° F/35° C  
Storage temperature: 14° F/-10° C to 149° F/65° C  
Operating humidity: 10% to 90%,  
non-condensing RH  
IP Rating: IP40

#### Electrical

Includes 12V power adapter

#### Agency Approvals

CSA, CE mark, C-tick, NOM/NYCE mark, FCC part 15 Class B, IEC 60950, ICES03, CE mark compliance (class B)

### PHYSICAL CHARACTERISTICS

Width: 27.75"/704.9 mm  
Height: 4.5"/114.33 mm  
Depth: 8.5"/215.9 mm  
Weight: 5.15 lbs/2.33 kg

## Other RW 420 Charging Options

In addition to the RW 420 4-Bay Power Station, Zebra offers the following charging options for your RW™ series printer

### RW 420 Vehicle Cradle

Intuitive, pushbutton release cradle for convenient storage and charging of the printer while in a vehicle. Fanfold media can be fed through the base of the cradle to extend the media capacity of the printer. This cradle can also be mounted to a RAM arm for flexible access and orientation.

### Quad Charger

Charges up to 4 Zebra Li-Ion batteries at a time in approximately 2–5 hours.

### Fast Charger

Charges a single Zebra Li-Ion battery at a time in approximately 2–5 hours.

### DC Power Supplies

If you need to power your printer off of the vehicle, but you don't need to mount it, opt for Zebra's DC power supply, which can be hardwired into the vehicle, or plugged into the cigarette lighter adapter.
